Emsisoft Anti-Malware

The ultimate weapon against all Internet threats.

FEATURE HIGHLIGHTS

Antivirus & Anti-Malware

Scans faster with two detection engines than most products do with just one.

Three-layered real-time protection

Surf Protection, Dual Engine File Guard, Behavior Blocker ensure optimum protection.
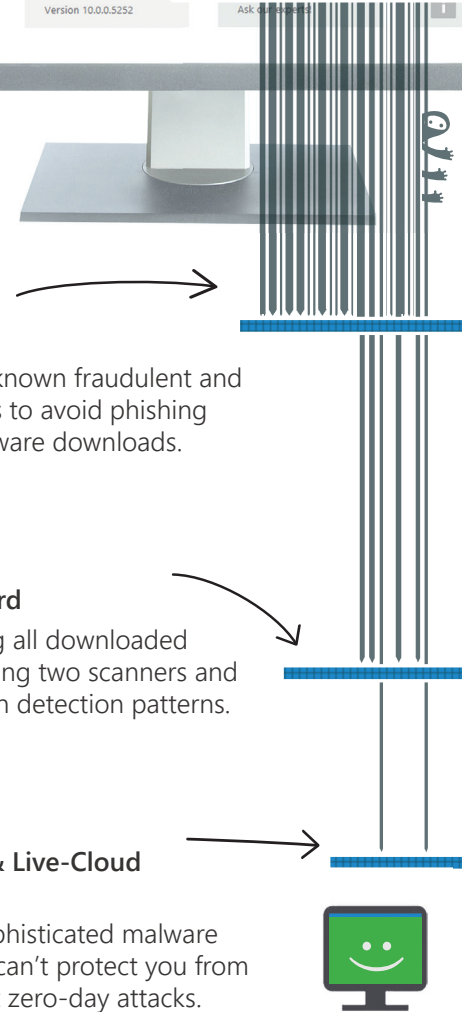

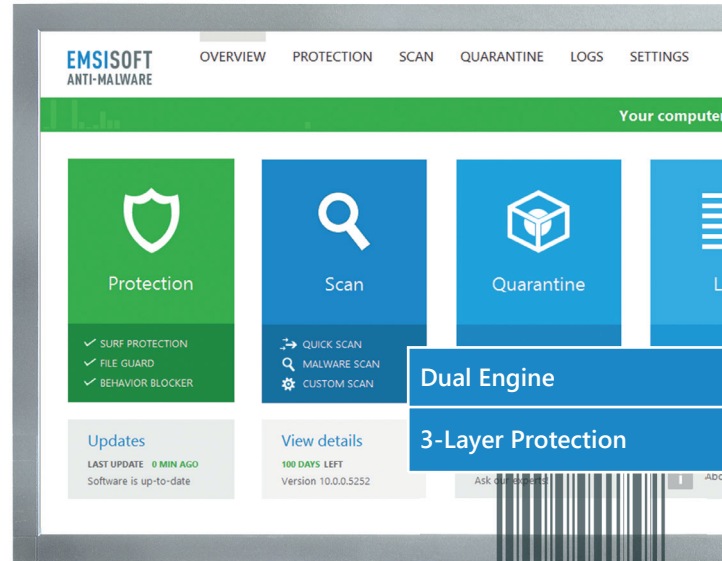

Easy to use interface

A simple yet efficient anti-malware that completely protects your digital life.

Removal of Potentially Unwanted Programs

PUPs are not dangerous per se, but come hand in hand with annoying ads or toolbars and slow down your computer. You can tell Emsisoft Anti-Malware to remove those for you.

Surf protection

Blocking access to known fraudulent and dangerous websites to avoid phishing and accidental malware downloads.
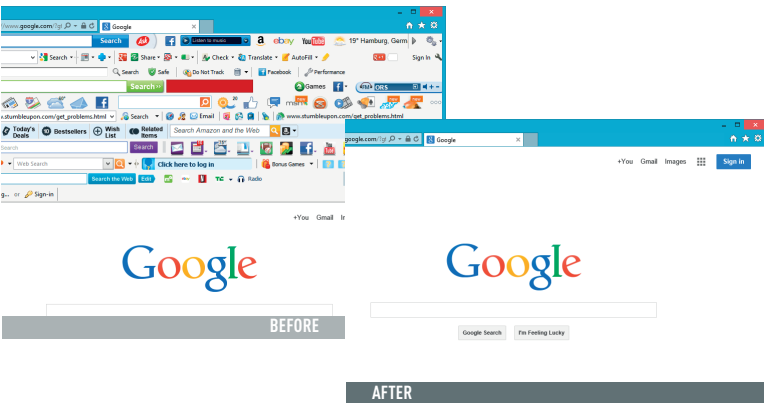

Real-time File Guard

Constantly scanning all downloaded and started files, using two scanners and more than 10 million detection patterns.

Behavior Blocker & Live-Cloud Verification

Preventing new, sophisticated malware attacks that others can't protect you from – optimized against zero-day attacks.

100% Performance

Emsisoft Anti-Malware is designed to use as few computing resources as possible, while ensuring highest detection rates.

Plus: Online Banking Protection

Keeps fraudsters away from your money by hardening your browser software.

MULTIPLE TEST WINNER

AV-Comparatives is one of a few independent testing organizations who put much time and effort into executing thousands of the most dangerous real-world malware samples, to determine which antivirus products can effectively protect against them.

Emsisoft constantly ranks exceptionally well in these tests – and in many others.
